

Joshua Nehohwa

Software Engineering Student | Junior Software Developer | Eduvos Tutor

Cape Town, South Africa | nehohwajoshua@gmail.com | +27 63 857 3965 | linkedin.com/in/joshua-nehohwa-b4b97b229 | github.com/jnehohwa

PROFESSIONAL SUMMARY

Software Engineering student and junior developer with experience across React/Next.js, TypeScript, Python, PHP/MySQL, Supabase, cloud fundamentals, and AI data evaluation. Strong academic performer with an 86% average, chairperson of Vossie DevClub, and current Eduvos tutor for ITMTA1-B22 students. Practical experience leading tutorial sessions, supporting Nature's Valley community IT and youth-ambassador coordination, building product prototypes, and working remotely with detailed AI annotation guidelines.

EDUCATION

BSc Information Technology (Software Engineering), Eduvos University | Mowbray Campus, Cape Town |
Expected graduation: Nov 2026 | Academic average: 86%

- Relevant modules: Data Structures and Algorithms, Software Architecture, Mobile App Development, Network Security, Cloud-Based Technologies, Mathematics 1A/1B, and AI Ethics.

TECHNICAL SKILLS

Languages | Python, JavaScript, TypeScript, Visual Basic, Java, PHP

Frameworks and tools | React, Next.js, Node.js, Tailwind CSS, Supabase, Clerk Auth, Git, Linux, Docker basics, Figma, Justinmind

Databases and cloud | PostgreSQL, MySQL, Supabase, AWS EC2, S3, IAM, Lambda

CURRENT TUTORING EXPERIENCE

ITMTA1-B22 Tutor, Eduvos University | Mowbray / Online | May 2026 - Present

- Lead weekly two-hour Teams tutorial sessions for ITMTA1-B22 students with full-slot availability.
- Provided live exam-logistics support during the June 19, 2026 ITMTA1-B22 Teams tutorial session.
- Coordinate tutoring availability with Eduvos staff and track tutoring hours for the weekly allocation.

CURRENT COMMUNITY EXPERIENCE

Nature's Valley Trust Community IT and Youth Ambassador Support | Nature's Valley, South Africa | June 2026

- Support Gavin on KuCoNa IT installation during Nature's Valley Trust coordination.
- Coordinate with Andrew to meet 10 youth ambassadors ahead of their July 1, 2026 start.

LEADERSHIP AND PROJECTS

Chairperson, Vossie DevClub | 2025 - Present

- Lead technical workshops, student developer programs, community outreach, and campus innovation events.
- Directed school outreach sessions teaching high school students foundational programming concepts.
- Organize hackathons, mentorship initiatives, and student-focused developer activities.

HackJam Innovation Platform, Team Leader | 2025

- Led a team that designed and implemented a campus-wide innovation platform for idea submission, voting, and mentor feedback.
- Built the frontend with React, Next.js, TypeScript, Tailwind CSS, and component libraries.
- Added gamification concepts including points, badges, mentor picks, and placeholders for AI-based scoring and feedback.
- Drove user research, prototyping, and final pitching; the project placed 4th in the university-wide HackJam competition.

Innosimm ERP System, Developer | 2025 - Ongoing

- Designing a custom ERP system for a vehicle and tyre business covering inventory, sales, purchasing, and basic finance tracking.
- Implementing a modular Next.js architecture with Supabase and Clerk for authentication and data persistence.
- Modeling real workflows such as stock movement, quotations, and invoices to replace manual spreadsheets and WhatsApp-based processes.

KasiSwap Marketplace | 2026

- Built marketplace surfaces across React/TypeScript and PHP/MySQL implementations, including listings, authentication-aware workflows, checkout-style order states, messaging, disputes, reviews, and admin moderation.
- Created rubric-aligned documentation, evidence packs, deployment notes, and code samples for an academic deliverable.

PROFESSIONAL EXPERIENCE

Freelance AI Data Specialist, Data Annotations AI | Remote | Jan 2024 - Nov 2024

- Refined large language model behavior by transforming raw HTML and text data into high-quality annotations.
- Provided detailed feedback on model responses and edge cases for production-level AI systems used in Google and Microsoft contract work.
- Worked independently with complex guidelines and evolving policies while meeting quality and throughput targets.
- Built practical understanding of prompts, context windows, evaluation metrics, and real-world AI behavior.

Lift Attendant, Snowshoe Mountain | West Virginia, USA | 2024-2025; returning 2025-2026

- Recognized multiple times as a top-performing employee for reliability and guest service.
- Managed guest safety, lift operations, and high-pressure decisions in challenging weather conditions.
- Strengthened resilience, teamwork, and cross-cultural communication in a diverse international environment.

ACHIEVEMENTS AND CERTIFICATIONS

Golden Key International Honour Society | Top 15% of university cohort, 2025

AWS Certifications | AWS Cloud Practitioner and AWS Solutions Architect Associate

IELTS Academic | Overall Band 8.5 / CEFR C2: Listening 8.5, Reading 9.0, Writing 6.5, Speaking 9.0

INTERESTS

Technical and personal interests | AI research, cybersecurity, cloud infrastructure, software systems design, trail running, basketball, golf, tennis, snowboarding, and chess.
