Joshua Nehohwa

JUNIOR SOFTWARE DEVELOPER | FULL-STACK WEB | REACT, NEXT.JS, TYPESCRIPT & PYTHON

Cape Town, South Africa | nehohwajoshua@gmail.com | +27 63 857 3965
LinkedIn | GitHub | Portfolio

PROFILE

Final-year BSc Information Technology (Software Engineering) student with an 86% academic average and practical experience delivering web applications, public websites, connected workflows, and technical handovers. Builds with React, Next.js, TypeScript, Python, PHP/MySQL, SQL, Supabase, and AWS fundamentals. Brings disciplined debugging and clear technical communication.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, PHP, SQL, HTML, CSS

Frameworks and development: React, Next.js, Node.js, Tailwind CSS, Git, REST APIs, WordPress, Elementor

Data, cloud and automation: PostgreSQL, MySQL, Supabase, AWS EC2/S3/IAM/Lambda, Docker fundamentals, Airtable, Jotform, Make.com, Google Apps Script

RELEVANT EXPERIENCE

Digital Systems and Web Development Intern | Nature's Valley Trust / KuCoNa | Nature's Valley, South Africa | 1 Jun 2026 - 1 Aug 2026

- Built and launched a responsive WordPress/Elementor website spanning 15+ public pages, three programme hubs, registration pathways, and a 14-partner directory.
- Configured and tested connected registration workflows across WordPress, Jotform, Make.com, and Airtable, including integration logging and duplicate-prevention controls.
- Cleaned 1,037 demonstration records without disrupting the live schema; created a 47-question bilingual survey, linked analytics, implementation checklists, and staff handover resources.

ITMTA1-B22 Tutor | Eduvos | Mowbray / Online | May 2026 - Present

- Lead weekly two-hour online tutorials, explain technical concepts, and support students with structured problem solving.
- Coordinate sessions with academic staff and maintain reliable tutoring availability and hour records.

Freelance AI Data Specialist | Data Annotations AI | Remote | Jan 2024 - Nov 2024

- Evaluated and annotated HTML, text, and model responses for AI work associated with Google and Microsoft contracts.
- Applied complex, evolving guidelines independently while documenting edge cases and meeting quality and throughput requirements.

EDUCATION

BSc Information Technology (Software Engineering) | Eduvos, Mowbray Campus, Cape Town | Expected completion: Nov 2026 | Academic average: 86%

Relevant study: Data Structures and Algorithms, Software Architecture, Mobile App Development, Network Security, Cloud-Based Technologies, Mathematics, and AI Ethics.

SELECTED SOFTWARE PROJECTS

Personal Portfolio Website | Designer and Developer | 2026

- Built and deployed a recruiter-focused portfolio that turns technical work into polished case studies with live demos, source links, technology summaries, and clear evidence of outcomes across full-stack, workflow, cloud, and community systems.
- Designed the experience around quick recruiter proof while preserving deeper project narratives, implementation highlights, technology stacks, and direct paths to working software and source code.

HackJam Innovation Platform | Team Leader | 2025 | 4th place, university-wide HackJam

- Led the design and React/Next.js frontend delivery of a campus platform for idea submission, voting, and mentor feedback; drove user research, prototyping, and the final pitch.
- Structured gamified participation through points, badges, and mentor picks; the team placed 4th in the university-wide HackJam competition.

Innosimm Group Website | Web Designer and Developer | 2026

- Designed and launched a responsive multi-page website for a Zimbabwean automotive and tyre-services company, presenting its credibility, leading tyre brands, service catalogue, gallery, and clear customer enquiry pathways.
- Organized the content into clear About, Services, Gallery, and Contact journeys so customers can quickly understand the offering and move from discovery to enquiry.

KasiSwap Marketplace | Developer | 2026

- Built a PHP/MySQL customer-to-customer marketplace with buyer, seller, and administrator workflows covering listings, protected checkout, order states, messaging, disputes, reviews, moderation, and audit controls.
- Delivered the database design, role-based access, deployment evidence, screenshots, and technical documentation as a complete academic software project.

LEADERSHIP AND RECOGNITION

Chairperson, Vossie DevClub | 2025 - Present

Lead technical workshops, hackathons, student developer programmes, mentorship, and school outreach activities.

Golden Key International Honour Society | Top 15% of university cohort, 2025

IELTS Academic | Overall Band 8.5 / CEFR C2

AWS credentials earned in 2022 | Cloud Practitioner and Solutions Architect - Associate; expired Dec 2025

ADDITIONAL EXPERIENCE

Lift Attendant, Snowshoe Mountain | West Virginia, USA | Two winter seasons, Dec 2024 - Mar 2026

- Recognized multiple times for reliability and guest service while working in a safety-critical, high-pressure mountain environment.
- Strengthened teamwork, judgement, and cross-cultural communication while supporting guests and coordinating operational responsibilities.

INTERESTS AND ACTIVITIES

Trail running, basketball, golf, tennis, snowboarding, and chess - activities that reflect endurance, teamwork, focus, and an enjoyment of continuous improvement.
